

AFRICA INLAND MISSION **FEATURED OPPORTUNITY**

Nyamwezi Outreach Team, Tanzania

Diverse skills and backgrounds combine to bless an Islamic community and share Christ.

The Opportunity

Begun in July 2018, this team is open to new members to join in the work. The Nyamwezi Outreach Team uses a wide range of ministry avenues to reach out to the Islamic Nyamwezi people, Tanzania's second largest people group. Ministries include Conservation Agriculture and other Community Development work, teaching in government schools, children's Bible clubs, Discovery Bible Studies, and teaching theology and equipping lay leaders.

New team members will focus heavily on learning Swahili in their first year of ministry, and continue to increase their language abilities as they serve.

Ultimately, the goal of this team is to bring the gospel to the unreached Nyamwezi people, and to disciple believers to be disciple makers.

Experience and Qualifications

Team members must meet AIM's standard membership requirements.

AIM seeks a team with diverse skills to engage in this Islamic community's felt needs. We're looking for team members with experience in agriculture and community development, teachers to serve in government schools, members to lead children's Bible clubs, and others to lead Community Bible Study (CBS) classes for all ages. This team is also seeking members who can teach theology and equip lay members and pastors to reach Muslims.

Ministry Dates

Immediate with revolving entry for new members willing to commit to two years or more of ministry.

Location

Central Tanzania
