

Clove Island Outreach Team

Join an exciting and growing work on an Indian Ocean island community. You'll join an existing team to help with the expansion of an English teaching and training program. Other ministry avenues can include medical care, sports outreach, literacy and other forms of education; all functioning under the umbrella of a service office managed by the team. All team members will need to come prepared to teach English or play a TESL support role and are required to have either professional teaching experience or completed an online TESL certificate.
