

AFRICA INLAND MISSION **SHORT-TERM OPPORTUNITY**

AIM AIR Internships // 2021

The Opportunities

Experience what it means to serve in mission aviation through an internship with Africa Inland Mission's aviation ministry, AIM AIR. You'll gain first-hand exposure to AIM AIR's flight and maintenance operations, the AIM AIR team, and learn more about the day-to-day life of a missionary pilot/mechanic in East Africa.

In 2021, AIM AIR is offering **two maintenance internships (8 weeks)** and **one flight internship (3 weeks)**.

The internships feature a flight to Kenya's northern region where you'll experience bush flying and get a glimpse of outreach ministry in a remote location.

Who can participate?

Participants should be enrolled in or pursuing some form of aviation technical training. We seek interns who are relational, flexible, and who have emotional maturity and a desire to learn through cultural experiences.

About AIM AIR

AIM AIR supports the broad work of missions and the Church in East and Central Africa. In an area representing 8 countries and over 8 million square kilometers, spanning the homelands of over 250 million people, AIM AIR is a vehicle to help take the Great Commission to the ends of the earth.

OUR MISSION is to provide safe, reliable aviation support that is personalized to enhance the effectiveness of AIM and ministry partners.
