**Come & learn how the Gospel can be shared
through Agriculture.**

- ★ 3 week practical hands-on workshop.
- ★ Incorporating Farming God's Way, Transformational Development & Church Planting tools.
- ★ Designed to help long & short term workers wishing to develop ministry in new ways.

Held at Growing Nations, Maphutseng, Lesotho

AIM Farming Quest 2022

Farming Quest is an opportunity for long & short term missionaries and church leaders in Africa & beyond, to come together for 3 weeks to learn about Farming God's Way, how agriculture can be incorporated into mission, discipleship & as a platform for church planting.

It is suited to those who have farming experience at the start of their assignments or existing workers who want to develop their ministry further through agriculture. It is also an ideal opportunity for those wishing to learn how they can share the gospel with the unreached, disciple new believers & start planting churches, in a relevant way.

Held on the Growing Nations demonstration farm in Lesotho, the founder of the project, Rev. August Basson, other members of the team & subject experts will teach the main principles of Farming God's Way & Transformational Development. Participants will have the opportunity to take part in practical demonstrations, classroom teachings, share their own experiences and to meet local farmers to hear how their lives have been transformed.

What you will learn:

- The Principles of Farming God's Way.
- How to teach others about Transformational Development.
- Teaching through agricultural extension & resident student programs.
- The benefits of cover crops & vegetable production.
- How to train & equip those in your community & beyond.
- How to use farming as a platform to establish a Church Planting Movement (CPM).
- How Discovery Bible studies can be used as discipleship and church planting tools.
