About PATH

Your responses to PATH form the basis for this report. The report includes your responses to the seven dimensions of a healthy team. The goal of PATH is to give you a snapshot view of how you perceive the functioning of your team. Just as physical health benefits from a regular checkup, so team health is enhanced when we periodically get a checkup. With periodic assessment the team is on the PATH to monitoring and maintaining team health.

Seven Dimensions of a Healthy Team

2. DIVERSITY: A team culture that values diversity, which is measured in a number of different ways, most overtly in personality.
3. COMMUNICATION: A team culture where members have the ability to share, respond, critique, and receive feedback.
4. CONFLICT RESOLUTION: A team culture that creatively and constructively works through conflict toward appropriate resolution.
5. LEADERSHIP: A team culture where appropriate leadership is understood and exercised.
6. DECISION MAKING: A team culture where the team has the ability to identify, process, and implement decisions.
